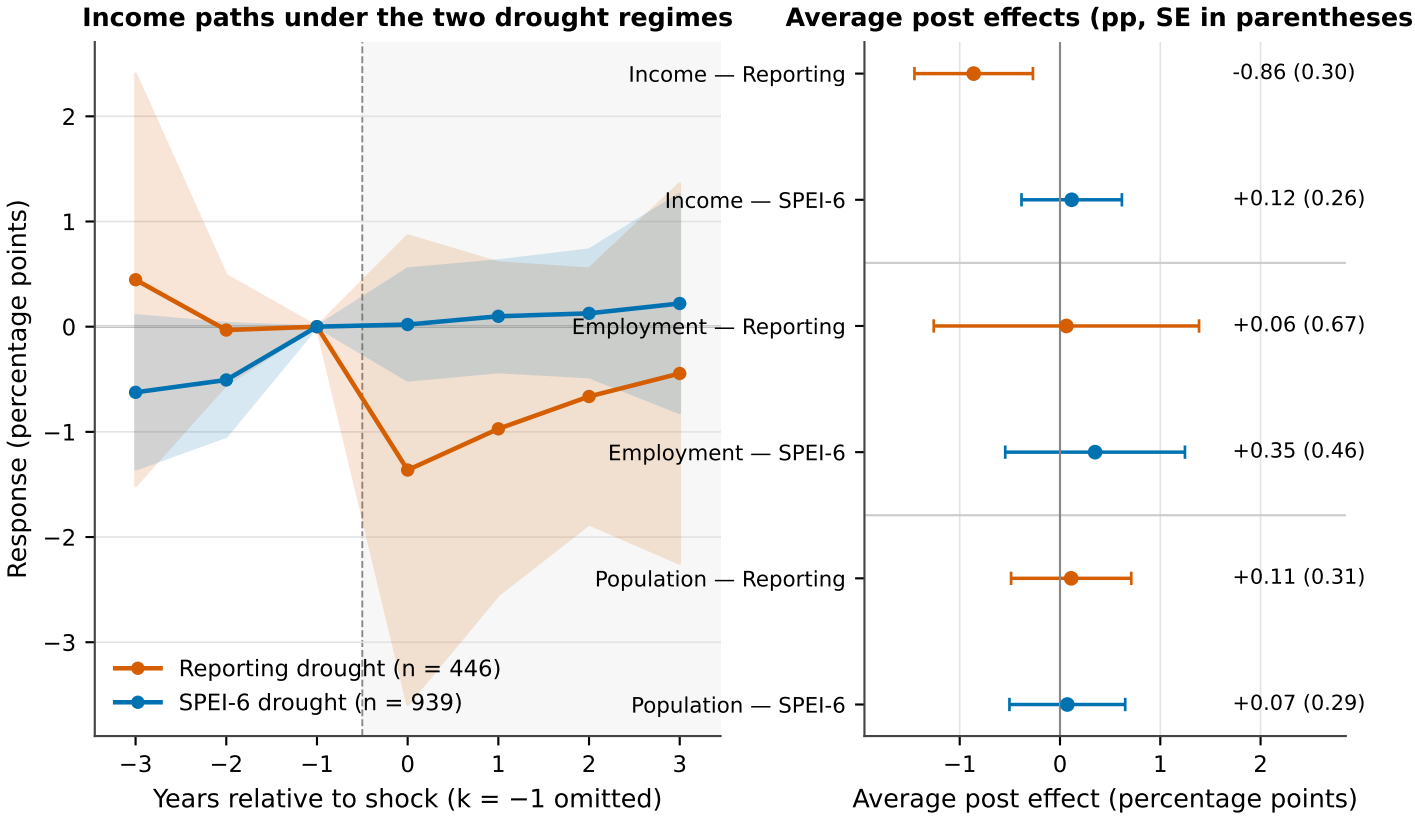
Figure 7. The regime contrast: reporting-based versus physical (SPEI-6) drought



Notes: Reporting drought income -0.86 (0.30) pp vs SPEI-6 +0.12 (0.26) pp; the SPEI estimate (MDE 0.72 pp) excludes the reporting estimate. The two rules agree on only 3,248 of shock county-years (reporting 5,705; SPEI 13,994; Jaccard 0.20).
